**ASTM F 976-08  
COMPLIANCE / CONFORMANCE CERTIFICATION STATEMENT  
for  
Portable Kerosene and Diesel Containers for Consumer Use**

DATE OF ISSUE:	July 13, 2010
REFERENCE No.:	2010-MIDWE-KE-5.0-7500
ISSUE TO:	Midwest Can Company 1950 N Mannheim Melrose Park, IL 60160
REPRESENTATIVE:	John Evans Certification Manager

**COMPLYING / CONFORMING PRODUCT(S):**

MODEL #	CAPACITY	DESCRIPTION
7500	5.0 Gallon	International Portable Fuel Container with Self Venting Nozzle (Model #208)  Material: Formosa Resin Formolene HL 5010

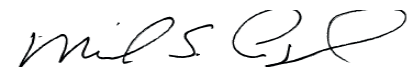

This Statement of Compliance / Conformance informs Midwest Can Company that their Non-Metallic Petroleum Based, Portable Fuel Container, Model #: 7500 5.0-gallon Kerosene, in the design and production release configuration as provided to TSG by Midwest Can Company conform to the requirements set forth within "ASTM International Designation: F976 – 08 Standard Specification for Portable Fuel Containers for Consumer Use" and its associated standards detailed within the specification.

This Statement of Compliance / Conformance is strictly limited to the products listed above and is applicable specifically to the design/production release configuration as tested by TSG. Any change(s) to the product without the express written approval from TSG in advance of the proposed change(s) nullifies and voids this Statement of Compliance/Conformance and the changed product is assumed to not meet the requirements of ASTM International Designation: F976 – 08 Standard Specification for Portable Fuel Containers for Consumer Use".

TSG assumes primary certification based upon the data supplied by Midwest Can Company from Underwriters Laboratories Inc File No. MH13731. UL being an accredited and recognized testing laboratory, TSG assumes all data documented and employed for certification is accurate and truthful. TSG does not assume responsibility for certification if the information supplied is false or outdated.
